

Hi there!

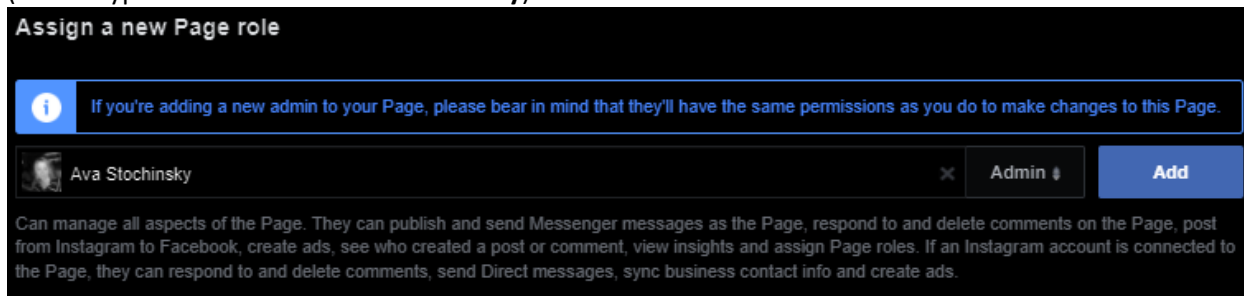

We'd love to start posting to your market centers Instagram account.

We just need access through a Facebook page that is linked to your market center Instagram account. This is because Instagram requires a linked Facebook page so we can schedule posts ahead of time for you. We need to be added as an **Admin** at least.

How to give someone a role: <https://www.facebook.com/help/187316341316631>

If you're an admin:

1. From your Facebook News Feed, click Pages in the left menu.
2. Go to your Page and click Page settings in the bottom left.
3. Click Page roles in the left column.
4. Type a name or email in the box and select the person from the list that appears.
(Please type in and choose: **Ava Stochinsky**)

5. Click the drop down menu on the right and select **Admin**.
(Please add Ava Stochinsky as an **Admin**)

6. Click Add and enter your password to confirm. Done!

*If you need to **connect your existing Facebook page to your Instagram account** you can follow these steps: <https://www.facebook.com/help/1148909221857370>

*If you **do not have an existing Facebook page** that you can link to your market center Instagram account, we can gladly set up an unpublished Facebook page for you in the meantime. Just provide us the Instagram logins so we can link them together.

*Please note that we may trigger a security response and ask for a verification code when we attempt to login to the Instagram account from our end.

Get Leverage:

We also supply virtual assistants to leverage your time.

Visit www.myvateam.biz for more information on our leverage or to book a consultation.
